CUSTOM MOLD BUILDING

Hagen's offers their machine shop capabilities to produce your custom soft bait, lead and hard foam multi-cavity aluminum molds. Please send a sample or drawing of your product idea for a price quotation.

Plastisol is also available. Simply pour plastisol into mold, bake at 400° for a half hour and create your own soft plastic lure.

Our Promise

Competitive Prices

Hagen's has maintained prices wherever possible. Where a price increase is needed, the increase reflects only the amount needed to cover our costs.

Reliable Customer Service

No matter what the size of your order, you will get the service you deserve. We want to serve our customers in the most convenient and efficient manner possible.

100% Customer Satisfaction

Hagen's guarantees 100% customer satisfaction. If for any reason, you are not completely satisfied with our products, please contact our customer service representatives within 60 days of receiving your order to make arrangements for an exchange or return of that product.

On Time Deliveries

Our experienced staff at Hagen's will work for you to give you on time deliveries.

Large Inventories

Our inventories have never been larger. We are working hard to maintain these inventories throughout the year.

Widest Selection Available

Hagen's has 248 pages to choose from, filled with a variety of quality component items. We are confident that our selection is unmatched in the component industry.

Custom Manufacturing Capabilities

Because we manufacture all spinner blades and spoons here at our facility, we have the capabilities to customize your order. From painting and pad printing to stamping, we can do it all! In addition, our complete machine shop facility allows us to custom produce a variety of products.

Commitment

Hagen's wants to be your reliable component source. We are constantly working to improve what we do. Please call us with any questions or comments. Our customers are our best source for new ideas and suggestions.

THE PRICES FOUND IN THIS CATALOG WILL GO INTO EFFECT

JANUARY 1ST, 2023

Until then we will honor pricing found in our old catalog and online at www.hagensfish.com

BLADE INFORMATION

- All blades and spoons are punched, polished, and painted in our plant.
- Our painted blades go through a special process, then treated with a non-corrosive primer. Black, purple and white blades are painted with a high gloss enamel. Only the highest quality fluorescent paint is used on all other colored blades.
- Lacquered blades are coated on both sides with an acrylic lacquer.
- All spoons and crystal blades are coated with two part urethane especially developed for Hagen's.
- Striped blade colors are designated by the order with which they are listed. The second color being the stripe color.
- Copper blades are stamped out of copper material, not copper plated.
- Brass blades are stamped out of quality marine brass material, not brass plated.

CUSTOM ORDERS

Hagen's has the ability to custom produce blades to meet your requirements.

- Custom painting of your color or design.
- Custom stamping of your name or logo.
- Custom pad printing of any design or logo.

Prices vary on custom orders by size, color and design of pattern. Please call for price and delivery information.

CUSTOM MANUFACTURING CAPABILITIES

Hagen's has complete machine shop facilities to custom produce your product to your specifications.

- Hard plastic injection molding
- Nickel plating
- Screw machine products
- Complete tool room for mold and die production
- Machining centers and CNC lathes
- Powder Coating

CUSTOM ROD MANUFACTURING

Hagen's can also custom manufacture bait casting, spinning and fly rods. For additional information on any of our custom applications, please feel free to contact us.

TERMS

Visa, Mastercard, Discover, American Express, C.O.D., or Pre-Payment. First time C.O.D. customers will need to pay certified check or money order. No account will be shipped merchandise unless their account is current. Accounts payable in U.S. funds. Make checks payable to Hagen's

CREDIT CARD

In order to use your credit card (either Mastercard, Visa, Discover or American Express) you will need to clearly state all numbers, the expiration date and the three digit verification code on the back of the card. You will

EXCISE TAX:

A 10% Federal excise tax will be added to all applicable items unless an approved I.R.S. form 637 is on file in our office.

A form 637 can be obtained by contacting your local I.R.S. Office.

The excise tax applies to articles of sport fishing equipment that are designed or constructed for the use in the sport of fishing.

The tax is paid by the manufacturer, producer or importer. Since Hagen's sells OEM components, we are required to charge the tax on items in our catalog.

The tax collected funds the Federal Aid for Sport Fishing Restoration Program. The program is used in part to construct fish hatcheries, purchase land for state parks, build boat access facilities, and present aquatic resource education projects.

Exempt items include poly bags, multi-compartment containers, pliers, wire, wire shafts, Paasche air gun and accessories, air compressor, rod cases, nylon net, Tackle Buddies, snell tyers, paint, earring wires, and keyrings.

then be billed by your credit card company. We will send you a regular invoice so that you will have a record of the amount of purchases and the date of the order. In the event a credit card order would need to be returned for credit or refund, these refunds will be made to your credit card account, however, any inquiries pertaining to shortages, damage or loss must be directed to Hagen's.

SHIPMENTS

Open account orders, freight will be prepaid and billed. Cash accounts should include approximate freight costs with order. All orders are shipped the cheapest way unless otherwise specified. Shipping charges are based on the weight of the package. No C.O.D. shipments can be made to Canada.

CUSTOMER ACCOUNT NUMBER

Please use your area code and phone number or your customer account number when ordering or on any correspondence with our company. It is very important that you supply this information.

MINIMUM ORDERS

Minimum order quantities are listed with each product in our catalog. **An additional charge of \$1.00 per order line item will be made for less than minimum quantities.**

EXAMPLE OF MINIMUM ORDER:

Colorado 2 nickel spinner blade: Catalog Cost \$26.01 per 1000. The price for 100 would be \$2.60 plus \$1.00 for being under the 500 piece minimum. The total cost for 100 Colorado 2 nickel spinner blades would be \$3.60.

Due to the cost of handling, any orders under \$50.00 will be subject to a \$5.00 handling fee.

MERCHANDISE RETURNS

No returns without prior approval. There will be a 10% handling charge on any returned merchandise. Returns must be in good condition. No returns after 60 days from the ship date.

SPECIAL PACKAGING

We can poly bag your bulk order to your specifications. Call us for a price quotation.

PATENTS

When placing an order for goods appearing within this catalog, the purchaser warrants that the finished article is not and will not be an infringement of any valid patents or trademarks, and the purchaser further agrees, at his own expense, to defend any and all actions and suits which may be brought against this company charging such infringement.

PRICES

Prices are subject to change without notice.

PACKAGING

All items contained within are shipped in bulk. Items are counted by weight and guaranteed accurate with +/- 2%.

PAST DUE ACCOUNTS

Any account which is 30 days past due will be charged interest at the rate of 1 1/2% per month (18% annually).

QUANTITY DISCOUNT

Quantity discounts are allowed as specified for each individual product. We will allow you to combine your total spinner order to obtain your quantity discount.

SHIPPING INFORMATION

The following is some general shipping information you may find helpful:

- All orders are shipped UPS or USPS. The least expensive option will be chosen
- Shipping charges are based on the weight of the package.

INTERNATIONAL ORDERS

Orders sent UPS usually cost more but arrive quicker, while those sent Postal Air Mail are less expensive but take much longer to arrive. Custom and duty fees are additional. Please allow at least one week before calling to check on international orders that have been shipped through the Postal Service.

Back orders are shipped as soon as the product arrives at Hagen's.

COLORADO BLADE

ACTUAL SIZE CHART

.018 material

COLORADO

The Colorado blade is a teardrop shape. It is wider than an Indiana blade, giving it a slower rotation speed. These are highly used blades as they rotate over an ideal speed range, offer great vibration and sufficient light and color flash.

PLAIN COLORADO SPINNER BLADES

NET PRICE PER THOUSAND. MINIMUM ORDER OF 500 SAME STYLE, SIZE AND COLOR.

Also available in .025 material

DEEP CUP COLORADO

NET PRICE PER THOUSAND
MINIMUM ORDER OF 500 SAME STYLE, SIZE AND COLOR

DEEP CUP COLORADO

The Deep Cup Colorado Blades are Colorado Blades with more surface area and a larger stamped cup on the trailing edge. This gives them more lift and water resistance which makes them rotate at slower speeds than standard Colorado Blades.

INDIANA BLADE

ACTUAL SIZE CHART

.018 Material

ACTUAL SIZE

INDIANA

The Indiana Blade is more narrow than the Colorado Blade; therefore causing it to have less vibration and to swing slower and closer to the fishing line on a walleye rig.

INDIANA PLAIN SPINNER BLADES

DAKOTA BLADE

DAKOTA BLADE®

ACTUAL SIZE CHART

DAKOTA BLADE

The Dakota Blade is basically a Willowleaf Blade with a section cut out. This allows for less water resistance. The Dakota Blade rotates at speeds between the Indiana and Willowleaf Blades of similar size. The cut out design allows the beads on your walleye rig to show more while the blade is spinning.

PROPELLER BLADES

Propeller blades spin rapidly at the slightest movement with a unique double flash. Propeller blades work well on crawler harnesses, spinners and plugs. These blades do not require a clevis.

WILLOWLEAF BLADE

WILLOWLEAF BLADE

ACTUAL SIZE CHART

WILLOWLEAF

The Willowleaf Blades are more narrow and are pointed at each end. It is made to move through the water with little resistance. They rotate quickly but require higher speeds to do so compared to the other blades of similar size.

PLAIN SPINNER WILLOWLEAF BLADES

IN-LINE

The In-Line Blade is oval shaped with a hole further down on the blade rather than the edge. A clevis is not used with an In-Line spinner as a shaft runs through the hole. This blade is known for its vibration.

FRENCH BLADE

French Blades are similar to the Indiana Blades in width, but have increased length with a slightly raised middle. As a result, they rotate at speeds similar to Indiana Blades of the same size. The French Blade is often used on In-Line lures.

POWDER COATED BLADES

NET PRICE PER THOUSAND
Minimum order of 250

- Hagen's powder coat has a baked on; durable finish
- Available in brilliant, fluorescent colors
- Powder coating can be completed on all sizes of Buzz Blades, Fluted Blades, Musky Blades, Hex Wobblers and Trolling Rudders
- Hagen's can powder coat on most brass bodies as well (Find the complete list in our catalog on pages 114 - 117)

WHEN ORDERING

Please use the order number for the desired color along with the order number of the desired blade

COLOR	PRICE	ORDER #
Green	\$465.90	202-95-08
Orange	\$465.90	202-95-07
FL Chart	\$465.90	202-95-09
FL Pink	\$465.90	202-95-14
Black	\$465.90	202-95-10

WHY CHOOSE POWDER COATING?

High Impact Resistance

- Eliminates chipping or scratching
- Longer life than paint
- Flexibility - can bend without cracking

Uniform control of finish

- Eliminates sags and runs
- Powder finishes are more durable than paint
- Brilliant, fluorescent finish

Durability

- Resistant to heat, corrosion, impact and abrasion
- Resistant to most chemicals and solvents
- Resistant to scratching, peeling and cracking
- Resistant to fading from sunlight

JIG SPINNERS

NET PRICE PER THOUSAND

MINIMUM ORDER OF 100 SAME STYLE, SIZE AND COLOR

- Other colors are available under special order. (Please allow extra time for delivery)
- On quantities over 25,000 call for prices.
- To earn discount on jig spinners, quantities must be of the same size and color

SUPER GLOW TROLLING THIN SPOON

NET PRICE PER THOUSAND

MINIMUM ORDER OF 100 SAME STYLE, SIZE AND COLOR

- Hagen's glow is a non-toxic, environmentally friendly, glow pigment which produces an exceptional glow, brightness and duration. There is not a better glow in the fishing industry today
- The best lighting source for this glow are those that are rich in ultraviolet and blue light spectrum
- To the bottom left you can see a sample of our super glow lures. These photos were taken with no digital modification, special camera lens, or lighting. This is how the lure looks after you charge them at least 10-20 minutes in sunlight. Notice how you can depict the red, yellow, blue, and green

GAME PLAN | COWBELL LAKE TROLL

The Cowbell is one of the most popular lake troll and perhaps the most productive troll in the world. Its unique blade design produces an awesome fish-calling vibration while premium plating and polishing of the blades offer maximum flash. You'll draw fish from greater distance, and produce more strikes with Cowbell trolls.

FLASHERS

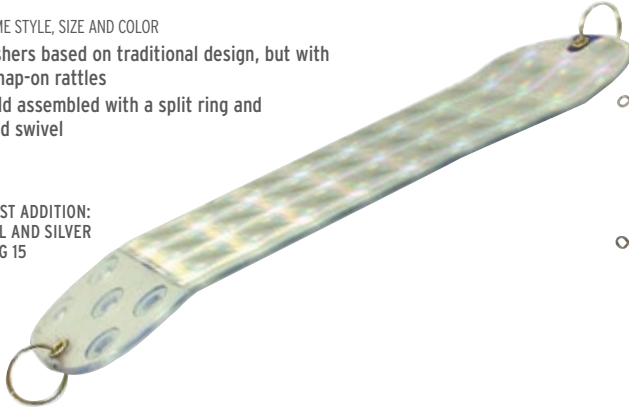

DAKOTA FLASHER

FITS MOST 11" FLASHERS

QUICK RELEASE SYSTEM

NET PRICE PER EACH
 MINIMUM ORDER OF ONE.

- Fits most 11" Flashers
- Made from high quality components and stainless steel hardware
- GDF Quick Release (patent pending) has the key feature of being able to finely tune in/adjust the tension required to release, allowing you to set it to whatever your preference is for the gear and bait you are using.
- Release the tension off of the Flasher/360 degree flasher when the fish strikes your lure allowing you to keep direct tension on the fish, instead of the fish being able to get slack while you are fighting the load and motion of the flasher.

PLUG BODIES

NET PRICE PER HUNDRED
MINIMUM ORDER OF 10 SAME STYLE AND FINISH

- Design and manufacturing process insures a well balanced, consistent performing plug
- All plug bodies have a thru-wire stainless steel insert (that creates a true-center keel) surrounded by a high buoyant, high impact forma
- Use a small duo-lock snap to attach the line (versus a direct tie) as the sharp corners of the laser insert may cut your line
- For paint and accessories for finishing your plug, see pages 178-179

BIG GAME POP BOTTLE POPPER

Our Big Game Pop Bottle Popper is traditionally designed for all game fish. The key is to vary the speed. Impact only enough rod tip action to splash the water to create the audible 'gurgle' sound, occasionally.

STYLE	DESCRIPTION	PRICE	RATTLE
PL11	5" Big Game Pop Bottle Popper, 3/4 oz, floating/popper	\$378.42	PL11-05-02

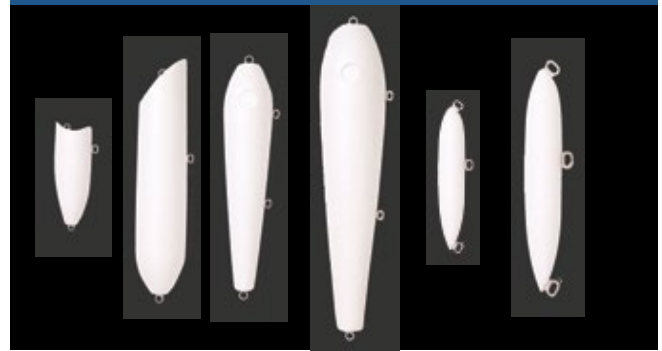

BIG GAME ZINGER

Designed for moving water, use our Big Game Zinger in breakaway currents, rip tides, and river rapids. Vary your retrieve for effective results. A long drift with constant tension on the line works best. 3-5 ft dive.

STYLE	DESCRIPTION	PRICE	RATTLE
PL13	5" Big Game Zinger, 1 5/8 oz, floating/diver	\$378.42	PL13-05-02
PL13	6" Big Game Zinger, 2 oz, floating/diver	\$428.80	PL13-06-02

TOPWATER SERIES

The plugs shown are a few of the most popular topwater designs available today. The true-center keel design makes these plugs easier to achieve desired actions.

STYLE	DESCRIPTION	PRICE	RATTLE
PL4	3" popper, 1/2 oz, floating	\$217.80	PL4-03-02
PL4	6" Big Game Diver, 2 oz, Floating SwimBait/Diver	\$337.58	PL4-06-02

Hagen's purchased the wire forming side of Battlefield Wire in July of 2013. We have since moved the equipment to our facility in Mitchell, South Dakota and are now manufacturing wire forms. We have stock items which are shown in this catalog. We also manufacture forms to your specifications. Please supply a sample or drawing for a price quotation.

GAME PLAN | LARVA LACE LEAD

LARVA LACE LED WIRE

Larva Lace lead wire will weight flies, without bulking them, to help them go down quickly in deep and fast water. Lead wire flies are easy to cast. Use lead wire in flies like flat bodied nymphs to increase the weight of the flies. Also can be used with spinning tackle and to put heavy heads on salt-water jigs and flies.

It makes a very smooth, neat and streamlined sinker. It hugs the line closely and will not slip up or down on the line. If you want to move the sinker along the line just untwist slightly and move as desired; then just twist tight and it stays put. It will not hang up or catch on grass, weeds, rocks, brush, etc. It will not injure or damage your line in any way. It is easy to apply by hand without special tools.

You can also add weight to spinners by coiling it around the shank.

Lead wire can easily be painted with flexible enamel or celluloid enamel for different colors.

DEEP DOWN LINE ATTACHMENT

NET PRICE PER EACH

"Line attachments are designed to allow long leaders (typically 40' to 60') and achieve certain fishing depths for your boat. I have found that most clip versions will eventually slip while fast trolling, rough waters, or when using heavy weights. Many fishermen are wrapping the clip versions to prevent this from happening.

We designed a line attachment to wrap versus clip, therefore creating a universal attachment for all makes and models of fishing lines. This attachment is easily removed in all fishing conditions and will not slip or fall off."

— Kevin Hagen

PRICE	ORDER #
\$4.73	41-10-36

1.) Open clamp, insert line on one end under safety lip

2.) Wrap line around both posts twice

3.) Wrap line around post #2 (longer post) two additional times.

4.) Slightly open clamp and pinch remaining line under safety lip.

Vanadium™

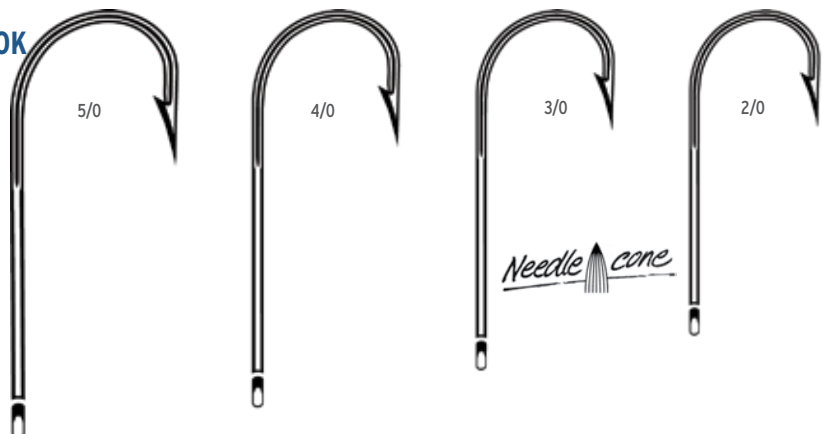

Vanadium™ is a steel alloy, which tremendously improves the hardening and tempering process. Therefore, it enables us to manufacture smaller diameter hooks which are up to 25% stronger and lighter than any other.

MAGIC® WORM BLOWER

Magic® Worm Blower keep crawlers off the bottom, making them more visible to the fish. The injected air increases the size of the crawlers, which makes them more attractive to the fish.

PRICE	ORDER #
\$2.49	MP1004

MAGIC® CLIP-ON BAIT CUP

This handy bait cup can clip onto belt loops, waders, etc. Can swing away from your body to provide easy access. As this cup hangs upside down, the bait is on top when tipped up.

PRICE	ORDER #
\$4.99	MP242

BUSS WORM BEDDING

Buss Worm Bedding is the original worm bedding. It provides a complete habitat for your fishing bait.

SIZE	PRICE	ORDER #
2 lbs	\$3.99	MP0002

BROWN BEAR WORM BEDDING

A Contains everything needed to store fresh, tough, vigorous worms. Just add clean water, keep cool and this bedding will guarantee clean, fresh bait for your fishing pleasure.

SIZE	PRICE	ORDER #
2 lbs	\$4.99	MP5802

MAGIC® WORM BEDDING

Magic® Worm Bedding is made from a special sphagnum peat moss base, an organic fibrous material which will hold up to twenty times its own weight in moisture. Magic® Worm Bedding is odorless and easy to work with. You add only a quart of water to a pound of bedding to support 100 nightcrawlers or 200 smaller worms.

SIZE	PRICE	ORDER #
24 oz	\$3.39	MP100
72 oz	\$7.39	MP101

LEECH LOCKER / BAIT LOCKER

A compact bait bucket that's ideal for leeches, minnows, shrimp and other baits. Fits easily into livewell, trolls beside boat or tethers to dock. Wading fishermen can tie to their waist to keep bait with them.

Small holes won't let bait escape, but aerate water so bait lasts longer. Top half can fit into bottom for instant access- just lift and water drains away; leaving bait at your fingertips.

The 10" high, 5 1/4" wide unit is the ideal size to hold a pound of leeches or three dozen smaller minnows.

DESCRIPTION	PRICE	ORDER #
Leech Locker	\$9.69	MP245
Bait Locker	\$9.69	MP246

MAGIC® WORM FOOD

A worm will eat its own weight in food each day, so with this fast consumption, the food nutrients in any bedding alone are not enough.

SIZE	PRICE	ORDER #
24 oz Can	\$6.29	MP124

ATTRACTION GEL

Magic Products Attraction Gel Scents are available in Bass, Trout and Walleye in a variety of scents. This attractant triggers the feeding habits of the fish. Easy to apply on floats, dough baits, lures, spinners, artificial baits, preserved bait, live bait, hooks or any other bait you use. In a 2 oz bottle with dispenser top.

Hot Pot Method: Heat plastisol to 350 degrees F, and continually stir. Plastisol will initially go through a taffy-like gel state. When product reaches temperature and cures, it will return to a cured clear liquid state. Pour from spigot before product cools. Remove from mold when product completely cools.

HAGEN'S PLASTISOL

NET PRICE PER GALLON
MINIMUM ORDER OF ONE GALLON

- Hagen's has developed a line of oil based plastisol suitable for use with the Lorie Kay mold system
- Use our blad and plug dip, glitter and crystalina products to make durable, custom made, soft plastic lures!
- Material is non-toxic but has a strong odor when heated
- Can also use food coloring with this product

SPINNING RODS

NET PRICE PER EACH
NO DISCOUNTS

601 SERIES

Unmistakably one of our best walleye rods. A good choice for jigs or casting crank baits.

602 SERIES

Without a doubt Hagen's best all-around rod. Bottom bouncers, jigging, spoons, casting crank baits, this rod is preferred by most fishermen.

662 SERIES

Great all-around spinning rod. Works well for casting, spinner setups or jigs. One of our top spinning rods. Now available in 2 piece.

702 SERIES

An excellent one-piece fast action spinning rod. A good choice for larger streams or lakes when you need that extra long cast or extra length.

702-2 SERIES

A superior two-piece light and sensitive travel rod. Assembles easily and is small enough to take on all your fishing trips when space is limited.

866-2 SERIES

Hagen's longest spinning rod comes as two-piece outfit that goes everywhere. For that extra reach when you're trolling for walleye or salmon in both deep and shallow waters.

CASTING RODS

NET PRICE PER EACH
NO DISCOUNTS

562 SERIES

The finest all-around 5 1/2 ft. rod for jigging or shoreline casts for bass. A perfect choice for great northern lakes.

510 SERIES

You will add a 4-8 lb. line and a lot of action while fishing with this rod. Rigged with small crank baits, spinner rigs or jigs.

601 SERIES

Highly recommended for sensitive jigging and live bait presentation for walleye. A great light action casting rod.

664 SERIES

A heavier weight rod that allows all day casting with minimal fatigue and still has the strength for a great hook set.

PLANER BOARD

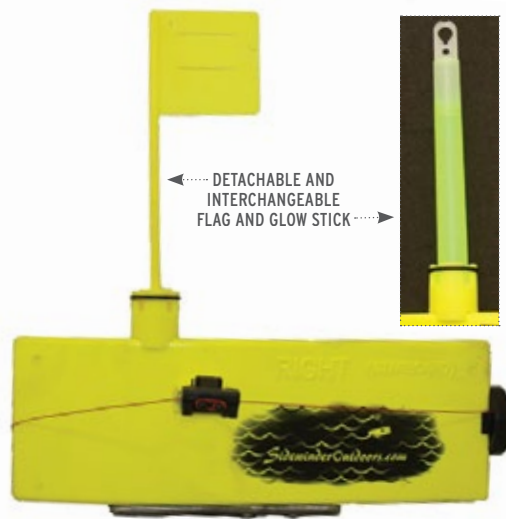

Net price per each

- Very lightweight
- Universal non-slip line attachment clip
- Quick release system
- Easy strike detection on small fish
- Will not absorb water
- Reacts faster at slow speeds and turning
- Easier retrieve, therefore less fatigue
- Quick detach flag to glow stick for night fishing
- Buoyant enough to handle lead core line and heavier lures
- Backed with a lifetime warranty
- Boards can be returned to Hagen's for repair or replacement
- US Patent 7,644,534 B2

DESCRIPTION	PRICE	ORDER #
Right Planer Board	\$31.35	97-50-10
Left Planer Board	\$31.35	97-50-20
Glow Stick	\$1.39	97-50-25

OPEN SLOT MUST BE TURNED DOWN WHILE TROLLING

ADJUSTABLE LEAD BALLAST

"The difference between this board and others on the market is the low center of gravity. The board is constructed of a very light weight core with a durable outer shell. With a light weight board and heavy ballast, the board reacts faster to waves, cornering, etc., keeping it vertical more effectively, thus making it perform better. I have fished with this board, and compared to others on the market and found it to be a superior tracking board."

— Kevin Hagen

CONTACT US FOR DEALER PRICING

Planer boards are available through Hagen's or <http://sidwinderoutdoors.com>.

Gregg and James can be reached at <http://sidwinderoutdoors.com> should you have any questions concerning the board, or any trolling techniques.

HAGEN'S TROLLING PLATE

TG-100/200

MODEL	PRICE	ORDER #
TG-100	\$153.89	MR15-10
TG-200	\$153.89	MR15-20

HYDROFOIL FINS

PRICE	ORDER #
\$20.80	MR15-25

- Hagen's trolling plate releases and locks in up position during acceleration
- Stainless steel and aluminum construction
- With one pull of the cord, the Hagen's trolling plate gets you down to the speed the fish are biting at
- Uses spring loaded cams for positioning so parts won't break or bend if you hit the gas while in the down position
- TG-100 fits 40 HP - 90 HP Outboards and Most I/O's (not compatible with Volvo Penta I/O with through-hub exhaust)
- TG-200 fits 90 HP- 300 HP Outboards
- Designed to trip between 4.5 and 5.2 mph depending on boat size, wind and current conditions
- Speed adjusts in 0.1 mph increments by using your motor trim
- Optional hydrofoil fins (sold separately) bolt directly on to the trolling plate mount to allow you to get your boat on plane even faster. The crescent-shaped surface of the fins funnel water through to the prop for quicker hole shots and to allow you to cut planing time; saving you fuel.

TROLLING POSITION

ALUMINUM TRAILER STEP

PRICE PER EACH

- Mount nearly anywhere on your trailer
- Side step to get into the boat when on the trailer
- Heavy-gauge aluminum construction

Welcome to the new edition of our Larva Lace catalog. We are happy to showcase all our great products in this catalog. We feel we have grown a lot since our purchase of Larva Lace in 2008. We have established Larva Lace as a proven, quality product line of synthetic fly tying materials. These materials were developed by avid fly tying enthusiasts. Along with the Larva Lace products, we have added several items that complement our product line.

All items are in retail prepared packaging and ready to place on your store shelves. Our goal is to make purchasing our product easy, quick and profitable.

We always welcome customer input. Give me a call with any questions or concerns or maybe an idea for a new color.

We are always working on improving our manufacturing processes and take pride in our ability to react quickly to customer orders.

We appreciate your business and look forward to working with you.

Good Fishing,
Lorie Hagen

BODY MATERIAL

SOLD IN 8' LENGTHS AND 1,000 FOOT SPOOLS

- Developed to meet the need for soft, realistic nymph tying material, the high stretchability of Larva Lace gives you the capability to tie nymphs from size 4 to 16
- Its hollow construction enables other material to be threaded through it giving a realistic exoskeleton appearance
- Tiers have found that colored liquid can be drawn into it giving uniqueness to their flies
- Insist on the original Nymph Body Material—LARVA LACE!

MIDGE LACE

SOLD IN 4' LENGTHS AND 1000' SPOOLS

- Larva Lace Midge is the finest material available for tying wet flies and nymphs ranging from size 18 to 28!
- This is the material that fills the void for the needs of the midge fly tiers as well
- Its hollow, translucent construction and high elasticity offers an unbeatable advantage over other materials

BODY STUFF SOLD IN 8' LENGTHS

Body stuff is a 0.059" solid, round, body material used for nymph bodies or ribbing on stones. It comes in either clear/translucent colors, or embedded with silver glitter flakes. Any color of tying thread you use as an under wrap will show through and the color is picked up by the glitter. With a bit of warming and working the Body Stuff through your fingers, it can be stretched and thinned down to tie smaller sizes of flies. It makes excellent bonefish patterns like Crazy Charlies and is also great for those long bodied Tarpon flies.

TYPE	PRICE	CLEAR	FL CHART	FL ORANGE	BLUE	BLACK	BLOOD RED	FL PINK	NIGHT GLOW

BODY STUFF MICRO AND MINI LACE SOLD IN 8' LENGTHS

Body Stuff is also available in two smaller sizes - 1mm Mini Lace and 0.5mm Micro Lace. This material is a must for midge tiers. It's a super tough round lace that comes in all the right colors. Now you can tie Crazy Charlies and bend backs as small as you like. Both sizes hold knots well for hopper and crab legs.

MATERIAL ORGANIZER

NET PRICE PER EACH - INCLUDES MATERIALS

The Larva Lace Materials Organizer is a handcrafted, solid oak stand designed to support 22-33 spools of Larva Lace body material.

The compact design fits conveniently on the tier's bench providing easy access to a large assortment of Larva Lace material.

The Organizer comes loaded with a fine selection of Larva Lace Body Material and Nymph Rib Material.

Now a second version is available with the option of Midge Lace.

The spools can be easily refilled when empty.

ANGEL HAIR

SOLD IN 6" - 8" HANKS (2 GRAMS) OR 1 OZ BULK BAG RED DENOTES BLACK LIGHT REACTIVE

- Angel Hair is a very fine Mylar type material that is sold in hanks or 1 oz bulk bags
- With 6-8 inch strands, Angel Hair can be used for those big old billfish flies, cut it up for dubbing your small trout flies, or just to add a little glitter to your old standbys
- Tied in Baitfish patterns like Deceivers and Clousers, Angel Hair seems to come alive in the water

- But don't over look using this material in Salmon, Steelhead, Bass and Panfish flies
- Angel Hair blends well with most other materials for dubbing, and it doesn't absorb water so large flies don't get heavier
- Favorite freshwater patterns are Angel Hair Halfbacks and Leeches
- If you need synthetic material that sparkles and glitters, it just doesn't get any better than Angel Hair!

SALTWATER ANGEL HAIR SOLD IN 6" - 8" HANKS AND 1 OZ BULK BAGS. RED DENOTES BLACK LIGHT REACTIVE

- ↳ Saltwater Angel Hair is a NEW version of Angel Hair design for tying large flies
- ↳ It has all of the properties that make Angel Hair a truly GREAT fly tying material
- ↳ It is wider and longer allowing you to tie larger bulkier flies
- ↳ Saltwater Angel Hair is perfect for tying everything from Billfish flies and larger trolling flies to articulated Steelhead flies
- ↳ Its larger size means it is better suited to stand up to the abuse of big fish with bad attitudes

POLY BEAR 2.5 GRAM (6" - 8" HANKS) AND 1 OZ BULK BAGS

Poly Bear is a blend of Angel Hair and polypropylene fibers. The poly material is about as course as Polar Bear or Calf Tail. It also doesn't absorb water, so larger flies won't get heavy and difficult to cast. Patterns such as baitfish, clousers and sand eels are excellent choices when targeting Coho Salmon on the west coast. Poly Bear is also excellent for spinner wings and streamer patterns.

SHIMMER 2 GRAM (6" - 8" HANKS) AND 1 OZ BULK BAGS

- Shimmer is made from combining holographic materials with very fine nylon fibers
- It swims and breathes just like marabou, but is much more resilient
- This tough material can be used as a substitute for any lure recipe that calls for traditionally delicate marabou
- It has held up and proven itself against Trout, Bass, Salmon, Panfish and Lakers
- Tie flies like wooly buggers, crystal buggers, clousers, leeches, sand eels, streamers and minnow patterns

ANGEL DUBBING 1 GRAM AND 1 OZ BULK BAGS

- Angel Dubbing from Larva Lace is a great 7 mm long fibered dubbing made from Angel Hair
- Inspired by the large Scandinavian style tube flies being tied today
- It is ideal for dubbing large bodies or articulated flies for Salmon, Steelhead and Pike
- Works great for saltwater flies too
- Use Angel Dubbing anytime you want lots of movement and just the right amount of flash
- It's long fibers have great action and sparkle in the water
- Fish find it irresistible

MOHAIR PLUS 1.5 GRAM AND 1 OZ BULK BAGS

- Mohair Plus is a blend of long-fiber mohair goat dubbing and Angel Hair
- It's long enough to dub a leech (like the dazzle leech), or cut it short to dub larger nymphs, scuds, woolly buggers, soft hackles, etc
- The favored method of dubbing for this material is with a dubbing loop of either thread or copper wire and a dubbing twister

SALMO SUPREME 1.5 GRAM AND 1 OZ BULK BAGS

- Salmo Supreme was inspired by Salmon fly tiers in Norway and Sweden
- It's a blend of Angel Hair and tri-lobal nylon fibers
- This combination gives Salmo Supreme a sparkle, while being slightly coarse to create an excellent spiky or buggy effect when you dub it

\$1.66	70002	70003

PURE SILK DUBBING

1 GRAM PACKAGE

- Pure Silk Dubbing is a 12 micron or smaller fiber that allows you to easily tie size 18 and smaller flies, perfectly in proportion to body size
- Silk dubs easily, and can be spun onto thread so thin, that you barely increase the size of your tying thread
- Pure Silk Dubbing is ideal for wings on drowned or crippled patterns, as well as trailing shucks on emergers

BUGSKIN YOU CAN'T MAKE IT LOOK ANY MORE REALISTIC!

- Bugskin is a strong, yet supple, material
- Each piece has hundreds of microscopic spaces in the fibers allowing it to "breathe"
- This means it can easily absorb moisture for a realistic look and natural drift
- Bugskin is perfect for leeches, crawdads, worms and other crustaceans
- The look, texture and touch are too lifelike for the fish to pass up!

This nylon thread has been approved to carry the Larva Lace symbol of quality. The super strength and invisible qualities make it perfect for tying the Larva Lace collection of flies and other ribbed patterns. Ideal for many translucent patterns and fantastic for securing poly shell backs when thread color is not desired. The diameter is 8/0 but the amazing strength is equivalent to 6/0!

UTC ULTRA THREAD 280 DENIER NYLON

BUNJEE BUBBLE

- This patented, impact resistant, casting bubble is the most unique and effective casting bubble on the market today
- The Bunjee cord feature allows a bait casting or spinning rod fisherman to use the heavier line on their reel but still cast a fly with the proper leader line to the fly
- The patented design accommodates the rod stiffness by providing shock absorbing qualities and actually helps to set the hook without risking a break off

“In the last 20 years, synthetic materials have taken over a large choice of materials in fly tying. I myself am part of the hair-fly-generation, but when I started flash, angel hair or synthetic dubbing combinations did not exist. At that time, we were dubbing natural materials. The favorite was seal’s fur that gave a somewhat translucent appearance. When you look at what today’s dubbings can do, you realize that the progress they’ve made is pretty amazing. **SYNTHETIC MATERIALS ARE IN MANY WAYS FAR SUPERIOR TO THE QUALITIES OF NATURAL MATERIALS.**”

When flash entered the market, it revolutionized all fly boxes! Flash flies created effects that were favorable, and above all changed cold water fishing completely. That was the beginning of a frantic chase for exciting new materials.

Most of the synthetic materials at that time originated from the United States and were intended to be used in fashions other than what we wanted them for. Since that time, I have tested hundreds of different dubbing combinations and flash in all imaginable qualities and colors, some good, some very bad and some became favorites. The supply of different synthetic material more or less exploded during the 80’s and 90’s and has not yet decreased. Today there are synthetic materials that can replace natural material in **ALMOST** every aspect (Extra emphasis on “almost” thank heavens! The connection to natural materials in fly tying is classical and should remain a part of the art of fly tying in my opinion!)

Gradually these questions started to arise: “Why shouldn’t we look for material that suit our way of tying? Why not look for color combinations that live up to our expectations that can be mixed or adjusted to fit our patterns? Why not contact the manufacturers and tell them precisely and exactly what we want with the qualities and color combinations we always have been striving for?”

We have reached great heights thus far when it comes to progress and functionality, tying technique, pattern and thoughts on how material ought to be used and how flies should swim. There is still room to grow, and **I HAVE BEEN WORKING WITH LARVA LACE TO DEVELOP THE FOLLOWING PAGES OF EXCITING AND GOOD PRODUCTS TO FILL THIS NEED.”**

— MIKAEL FRÖDIN

“A great fly should look like it will bite the leader and swim off by itself..”

SSS ANGEL HAIR SOLD IN 6-8" HANKS AND 1 OZ BULK BAGS

We use Angel Hair in almost all our fly creations today. In the smallest flies merely one or two strands of Angel Hair as the only flash element. In the bigger flies we mix Angel Hair and natural hair to create an optimal and appetizing mix. Angel Hair was a god sent for fly designs. We have often made our own mixtures, color combinations to harmonize well with our patterns. It was rather natural for us to start creating our own Angel Hair blends. Our partner Mikael Frödin has put together 15 different blends where three of them have strongly fluorescent streaks. With these blends you can tie all kinds of creations - from the smallest fly for sunny days to the meanest, biggest fly for the murkiest water. Choosing the right color has never been easier!

SSS ANGEL HAIR HD SOLD IN 6-8" HANKS AND 1 OZ. BULK BAGS

HD stands for heavy duty. This is a heavier type of Angel Hair. The material is somewhere between common flash and the original Angel Hair quality. Many times you experience the common flash to be too heavy and the Angel Hair too thin. Voila! The solution was Angel Hair HD. We have longed for this material for a very long time. This material replaces the flash in small flies and the Angel Hair in the bigger ones. This kind also comes in 15 different color blends. You get the whole color chart with the three hot, fluorescent colors as an extra spicy alternative.

SSS GLITZ SOLD IN 2 GRAM AND 1 OZ BULK BAGS

The next member of the Salar Synthetic Series, is a long fiber flash dubbing with extreme characteristics - SSS Glitz. Unlike the SSS dubbing that is built on translucent synthetic fibers, Glitz is built up of flash fibers in several qualities and colors. A dubbing mix may contain up to 15 different types of fibers. All helping to achieve those perfect glittering seductive characteristics without tangles of fibers!

Of course, Glitz is a dubbing with fibers that are long enough to be brushed to perfection, even on the largest of flies. It is well suited for larger salmon, sea trot and Steelhead flies. It creates saltwater flies and sculpins beyond your wildest dreams. It sparkles and shines more than any other dubbing! Glitz - When you want your big flies to stand out!

SSS DUBBING SOLD IN 2 GRAM AND 1 OZ BULK BAGS

We never did understand why you should dub without brushing. The ultimate qualities of dubbing are to create a body that reflects and lets through as much light as possible. Most dubbings have too short strands to fit big flies. If you brush it half of the material will fall off which makes it impossible to get the right lustre. The structure of the SSS dubbing consists of transparent synthetic fibers, dyed and mixed with the SSS Angel Hair blends. The strands of the Angel Hair are cut long enough to enable the brushing without them falling off the body. The 15 color combinations give you many imaginable variations for everything you tie!

Dubbing	\$18.00	44299
Glitz	\$18.00	44399

SSS BRAID

SOLD IN 5 METER PACKAGES

It's a long time since I stopped using traditional tinsels, flat as well as round and oval ones. The synthetic braid is superior. It is stronger, you can find it in any imaginable color and the color does not wear off. I have made my braid in a quality which makes it perfect for all forms of bodies. It is not too thick to overlap or to be twined. In my own fly tying I only use this one quality. If I need a ribbing I use the same material but twine it into a round or oval form. The harder you twine the smaller flies it fits. It is simple and effective and you can use the same quality for both body and ribbing. The SSS-Braid also comes in the 15 unique SSS colors.

SSS FLASH

SOLD IN 30 CM HANKS

This is my own flash. It is the same mixtures as in the Angel Hair qualities. It's simple and supreme and all out of the same bag. It's just as good as the old Rainbow flash combinations were. You don't have to pull out one strand here and two there, mix and tangle. Here you can just get going. You find the 15 fine color blends that suit everything from the brightest fly to the extra spicy night flies. The flash is not too stiff and yet not soft enough to tangle. This is a flash that swim perfectly, in the fashion that I always have intended my flies to swim.

This tubing system is Mikael Frödin's ORIGINAL SCANDANAVIAN DESIGN.

F.I.T.S TUBING

SOLD IN 1 METER LENGTHS

The flexibility in these tubes also means that the tube does not break and can withstand the tube hook going in and out of the tube many times. During tying the thread wraps will almost go a little lashing down in the tube and make the fly even stronger. Another unique feature is when you melt the tubes the color will be retained, pigmentation becomes even stronger.

F.I.T.S TUNGSTEN CONE

SOLD 10 PER PACKAGE

This may seem like a traditional cone head, not much different from those already available on the market - but they sure are not! In addition to having the traditional advantages of weight concentrating properties in standard tungsten cones they also balance better in the water for their size. They create a perfect balance with SALAR tube hooks, no matter if you prefer double- or treble hooks. The shape of the cone makes it cut the water nicely. They are also very easy to tie with!

F.I.T.S TURBO CONES

SOLD 10 PER PACKAGE

This cone uses simple physics to make your fly swim better than anything you have ever seen before! The cone divides the water and creates turbulence that will make your fly move and look alive. With the Turbos you can use the softest materials without them collapsing in the current. The fly creates its own little turbulent stream where the materials in the fly can move even in the slowest or strongest current. If you believe in a moving lively fly this must be your choice. Remember, the fly is all the fish is supposed to see!

WE JUST WANT TO LET YOU KNOW: YOU ARE APPRECIATED!

We have been a part of the fishing community for over 45 years. Generations of Hagen's products have been used to catch fish all over the world. YOU have given so much to our family, that we want to give back to you and your loved ones.

We are proud to sponsor the **Fish Stories Archive** as a way to give back to those who love to fish. This is the only online place for angler voices to be preserved for the future of fishing. The legends of friends and family who you appreciate can be cherished forever at no cost to you!

Set up a time to chat with an important angler in your life. It might be on the boat, in a restaurant or on your couch at home. Making it happen is the hardest part.

Create a new voice memo on your smart phone by pushing the record button. Hold the phone like a microphone or set it on a stack of books between voices.

Go to Fishstories.org and upload the finished file to the archive or email it to story@fishstories.org. Then, share it with your friends and family for years to come.

ONLINE ORDERING AVAILABLE 24/7

Head on over to hagensfish.com and place your order online.

You can browse our online store.

Know exactly what you're looking for? You can use the search feature to go directly to the item.

You can also view or download our catalog if you prefer to view all the products we have listed in our catalog by flipping through the pages.

We also offer many added features online like our rig building option as well as video tutorials covering a variety of different topics such as tools, product explanation / instruction, rig/snell tying and fly tying.

We will also be adding new products as they become available so they may not have been featured in our most recent catalog.

Be sure to check us out.

Kitchi Landing

RESORT

Blackduck, MN

KITCHI LAKE
CASS CHAIN OF LAKES

KITCHILANDING.COM

#KITCHILANDING

Hello! We are Steve, Val & Bodhi Engelman - the proud owners of Kitchi Landing Resort. There was a great feeling of coming home when we purchased the resort in 2017. Val's great-grandfather, Ben Hagen, owned the resort for a period of time in the late 40's - then called Hagen's Resort (Home of the 3lb Crappies!). This where his son, Harold, learned his love of fishing and eventually went on to open his own shop - you guessed it...Hagens! His son (my Dad!), Kevin is now at the helm of the family business and it's a fateful family fishing trip with him that brought us to the resort for the first time. We toured the property, had some moments and ended up stopping in the Lodge for a visit. There, hanging on the wall was that iconic dock photo of Ben with the still standing fish house in the back! We had a great visit with the owners and as we were getting ready to leave they jokingly said "hey, we put it on the market this week"... six months later we were moving in. Kitchi Landing has a special history to many that we love sharing along with all the fun and adventure lake life has to offer. Come join us making your own history on this little piece of Northern MN Paradise!

1,858 acres of varied structure with a max depth of 50 ft. Excellent access to the Cass Lake Chain that includes 2 rivers and 7 lakes!

Enjoy catching Walleye - Northern - Muskie - Large & Smallmouth Bass - Crappie - Bluegills & Sunfish!

Rustic, charming 2 & 3 bedroom cabins with lake or forest views!

Fully supplied kitchen, charcoal grill, firepit, picnic table, boat launch & dock space included. We use safe & eco friendly cleaning products!

Hike the Chippewa National Forest, the old growth pine at the Lost 40, or bike the Paul Bunyan Trail!

Take a day trip to Voyagers National Park, the Iron Range or explore the Mississippi Headwaters at Itasca State Park!

We have a beautiful new beach, sand volleyball court, large community fire pit, kayaks and a playground for the kiddos!

Boat rental available

The Lodge hosts many fun events and serves pizza, beer, ice cream & snacks!

It's another beautiful Day at Kitchi!
